I know how that goes. I was thinking about approaching Gloria Allred but she may not want to rep a case of 2 Epstein victims fighting.

That would be amazing! This is such a high profile case.

If she wants to rep a case suing Politico and Tara Palmeri for misrepresenting my character by calling me a coconspirator/ enabler let me know. I have till May 14, which is the last date before the statute of limitations runs out.

Oh no

So just so I get this right the lawsuit is against Virginia and then together who had the podcast she spoke on?

And them

My attorney right now thought suing both at the same time was not appropriate. A private citizen and press are separate issues.

I originally wanted both in the same lawsuit.
